

## OSPL Nederland B.V.

Zandstraat 20  
5683 PL Best  
The Netherlands

Web. [www.ospl.nl](http://www.ospl.nl)

Tel. +31 (0) 499 327 326

OSPL is a manufacturer of TEMPEST, Rugged and Secure Solutions to Military organisations and Government Agencies throughout NATO and the EU.

The company operates and manages an **ISO17025 and SDIP-55 accredited TEMPEST test facility** that is approved by both the Dutch NSA and NATO NCI Agency.

Utilising the latest in TEMPEST receiver technology, [FSET-22], our TEMPEST test facility is one of the most modern in Europe with two certified test chambers that are capable of performing testing to the highest NATO TEMPEST standard, SDIP-27 Level A, and the German ER-Kurzvermessung TEMPEST standard.

OSPL has over the years amassed a wealth of knowledge in understanding its customers' needs and as a result is constantly adapting its TEMPEST product range to meet their exacting requirements, be this in the office or the field.

All electronic equipment has the potential to emit unintentional radiation that could be recovered and reconstituted – OSPL's range of TEMPEST equipment includes, but is not limited to, the following equipment types:

- Laptops and workstations
- Printers, scanners and copiers
- Thin clients, servers and network components
- Communication devices, e.g. IP telephones, Secure Fax and Video conferencing
- LCD displays and projectors

With a comprehensive European reseller network and offices in the United Kingdom, Germany and The Netherlands, OSPL is strategically located to provide the necessary service and support to our customer base.

Amongst its many customers, OSPL is a major supplier to both the Security Services and the Ministry of Foreign affairs throughout many NATO and EU countries and is therefore no stranger to being called upon to comply with additional national TEMPEST requirements or for the integration of encryption devices.

In addition to its comprehensive range of TEMPEST equipment, OSPL also provides:

- TEMPEST test and certification services
- Shielded enclosures [PC, printer and 19" rackmount]
- TEMPEST re-engineering and or recycling/disposal
- Consultancy, installation and maintenance services

TEMPEST equipment is built to the highest standards at our secure production facility by a core team of security cleared, experienced professionals in accordance with our strict ISO 9001 quality procedures. The production facility is flexible in that it can easily be configured to build OSPL's full range of TEMPEST, rugged or secure products in small or large production batch sizes.

OSPL bases its range of TEMPEST equipment on proven technology from leading OEM equipment manufacturers such as HP, Dell, Cisco and General Dynamics Itronix, however, as an independent we are not limited to these companies and so should you have requirements based on other manufacturer's products we would be happy to TEMPEST modify and certify these too.

Advanced TEMPEST technology for a safer future

## OSPL TEMPEST Product Catalogue Q1 2014

Nr	Available products	Description/configuration of each model	SDIP Level A, B or C	
1.0	Desktop PC	<b>OSPL TMT 1040 SDIP-27 Level A TEMPEST workstation</b> <b>Based on OEM HP 8300 Elite CMT PC:</b> <ul style="list-style-type: none"> <li>• TEMPEST Midi Tower casing, HP dc8300 Motherboard.</li> <li>• <b>Intel Core i7-3770 3.40GHz CPU, 8MB L3 Cache, 4 cores,</b></li> <li>• 4GB DDR3 Memory [2x slots free]</li> <li>• 3x full-height PCI, 1x full-height PCI-e x1, 2x PCIe x 16</li> <li>• TPM 1.2 chip on motherboard, Intel® Q77 Express chipset.</li> <li>• <b>Dedicated 512MB PCIe Graphics Card</b></li> <li>• Integrated sound card and speaker</li> <li>• <b>500GB SATA 7200rpm Removable</b> hard disk drive</li> <li>• SATA DVD+/-RW super-multi Lightscribe optical drive</li> <li>• 1 x VGA, 4 x rear USB 2.0, 1x Keyboard &amp; 1x mouse ports</li> <li>• PnP and BIOS setup/boot password/setup password</li> <li>• 105-Key Windows keyboard [Country Specific layout]</li> <li>• Optical mouse with scroll wheel</li> <li>• <b>Drive bay door interlock: blanks screen when door is open</b></li> <li>• <b>100Mbps Fibre Ethernet interface SC connectors</b></li> <li>• <b>TEMPEST Filtered AC supply:</b> 100 to 230 VAC 50/60Hz operation, <b>C/w Country specific mains Cable</b></li> <li>• OS: MS Windows 7 Professional 64-bit</li> <li>• <b>1-year Return To factory Warranty</b></li> </ul>	 <p><i>Lightweight Aluminium Chassis</i></p> <p>[Monitor quoted separately]</p>	Level A

13.0.1		<b>Upgrade to 3-years Return to Factory Warranty</b>		

**Notes:**

1. Delivery: **Typically 8-weeks** from receipt of order
2. Payment terms: strictly 30 days net.

### Warranty

OSPL offers a Standard **1-year** Return to Factory warranty. This return to factory warranty includes all parts, labour and return delivery costs, [Repair and return]. Warranties exclude Misuse, Abuse and Damage.

An optional upgrade of up to 3-years return to factory warranty is available upon request.

Where equipment is deemed obsolete during the warranty period OSPL reserves the right to replace faulty units with equipment of equal or better specification, [Form, Fit & Function].

### Delivery

Typically delivery lead times are **6-8 weeks** from receipt of order.

### Certification

All equipment is certificated to **SDIP-27/1 Level A, B or C** – a Certificate to this fact will be provided with each piece of equipment with delivery. The Formal Endorsement process is now in accordance with SDIP-55.

### Level C equipment:

All of the equipments shown above are available in **Level C** variants – should this be of interest to your customer then please contact OSPL for a price.

**Please note due to the fluid nature of this industry the above list of products represents those products available today that we feel best suit your requirements, however, **this is not an exhaustive list** and so should you not see what you are looking for then please do not hesitate to contact OSPL.**

In addition to its comprehensive range of TEMPEST equipment, OSPL also provides:

- TEMPEST test services
- Rugged Equipment
- Security Consultancy
- TEMPEST re-engineering and or recycling/disposal
- Installation and Maintenance services

OSPL has gained accreditation for its TEMPEST laboratory to ISO/IEC 17025:2005 per the requirements as stated in SDIP-55

As an SDIP-55 Certified TEMPEST test facility accredited to SDIP-55 OSPL is listed on the NATO NCI Agency's website as an **"Approved TEMPEST vendor"**.
